Pump P101

↓

Bearing Failure

↓

Overheating

↓

Incident 2024

Explain

"The graph automatically connects knowledge across documents."

Scene 4

Expert Copilot

Question

"What is lubrication interval for Pump P101?"

Answer

"30 days"

Confidence

0.94

Sources

manual.pdf

Scene 5

Root Cause Analysis

Question

"Why Pump P101 failed?"

Show

Historical Incidents

Similar Failures

Recommendations

Explain

"The RCA Agent combines manuals and incident history."

Scene 6

Compliance Agent

Question

"Show OISD compliance gaps."

Output

Missing inspections

3 violations

Scene 7

Lessons Learned Engine

Show

Recurring pattern

Bearing Failure

12 occurrences

Recommendation

Monthly inspection

Scene 8

Innovation

Highlight

✓ GraphRAG

✓ Knowledge Graph

✓ Multi-Agent AI

✓ Explainable AI

✓ Hybrid Search

Scene 9

Business Impact

Reduce Search Time

30 min → 20 sec

Knowledge Preservation

Reduced Downtime

Improved Compliance

Final

"IntelliPlant AI transforms fragmented documents into a continuously evolving Industrial Operations Brain."

Thank You
